

In Memoriam

Richard Gustafson

Richard Gustafson died peacefully on July 6, 2009. Richard worked for the Bangor Water District for over 22 years. At the time of his death, Richard worked at the District's water treatment facility as a Water Treatment Operator. Prior to his position at the treatment plant, he worked in the District's Construction Department responsible for the installation and maintenance of distribution piping. Richard was a dedicated employee. We will miss him as an employee, as a coworker, as a friend.
